

**Manatee**

User information appropriate for use by people with visual, reading or cognitive disability      The latest version of all instructions are always available on the R82 website [support.R82.org](http://support.R82.org) and can be printed in larger sizes

Information available in pictogram      The instructions are made as pictograms

Intended use and intended environment including standard options      The Manatee is a bathing chair suitable for disabled children. The chair is designed to place the user in exactly the right sitting position. The depth of the seat can be adjusted, allowing the chair to grow with the child. The product is for indoor use in a bathroom environment. The target group for this device is disabled children with cerebral palsy (CP). Also, children with muscular dystrophy, spina bifida, spinal cord injuries and neurological impairments can be subject to the device. The product is suitable for children with GMFCS level 3-5.

Maintenance instructions      Maintenance of a medical device is wholly the responsibility of the owner of that device. Failure to maintain a device in accordance with the instructions may invalidate the device's warranty. Furthermore, failure to maintain a device may compromise the clinical condition or safety of users and/or their caregivers.

| Frequency       | Description  |
|-----------------|--|
| After every use | <ul style="list-style-type: none"> <li>- Wipe off any residue and dirt from the product using a cloth with warm water and a mild detergent/soap and dry before use</li> <li>- When the chair has been used in water containing chlorine it must be washed out with clean water and dried with a cloth. Make sure that all water is out of the frame</li> </ul>   |
